Founder of Broken Crayon Games, Tyler Yohe, had this to say about the contest:

“The monumental task facing all indie developers today is making a \$5,000 *per year* budget compete with the \$1,000,000 *per event* marketing budgets of AAA studios. As a publisher services company though, it's our job so we follow one simple philosophy, 'go big or go home'. And since for our team video games are a lifelong passion, we felt it couldn't get any bigger than a promise of free games for life!”
